

# Premier Multi-Vitamin

Immune Priming, Brain, Cardiovascular, and Whole Body Support\*

Premier Multi-Vitamin provides comprehensive, whole-body nutrients in a potent, plant-based formulation. Vitamins and minerals are essential substances the body needs to function properly. Most vitamins and minerals can be obtained through diet, but it is difficult to ensure you are getting all the nutrients you need from your food alone. Research shows that multi-vitamin use is linked with healthier antioxidant status, inflammation modulation, blood sugar levels, eye health, cardiovascular markers, and overall immunity.

Premier Multi-Vitamin offers a Premier Quality choice for nutritional supplementation because of its potent, sustainably sourced, fermented whole food ingredients. We have included multiple expert-cultivated botanical blends: Organic Plant Matrix, packed with superfoods and antioxidant botanicals; Immune Primer, powered by turmeric, garlic, and reishi mushroom to boost the body's natural defenses; and Organic Fermented Greens Phytoblend with detoxifying, alkalinizing, nutrient-dense leafy greens.

Together, these powerhouse botanicals deliver a complete spectrum of recommended daily vitamins and minerals, while also boosting immunity, enhancing energy, activating cognition, strengthening bones, supporting the heart, protecting the liver, balancing pH, soothing digestion, and even modulating mood.

Experience the difference that our innovative and comprehensive formulation offers. Our ingredients are meticulously fermented with probiotics to unlock their macro- and micro-nutrients in their simplest, most bioavailable forms, making them highly absorbable and contributing to a healthy gut microbiome.\*

## Benefits

- Supports brain, bone, heart, liver, and digestive health.\*
- Promotes optimal functioning of the immune and cardiovascular systems.\*
- Balances pH, mood, and energy.\*
- Contributes to healthy intestinal flora and a resilient microbiome.\*

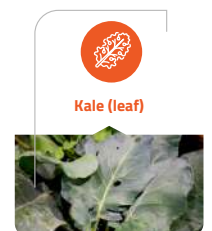

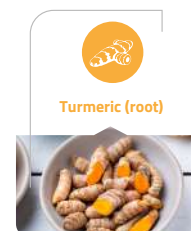

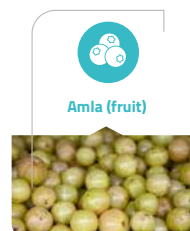

## Highlights
