

# Fermented Gallbladder-ND™

Premier Fermented Gallbladder Support\*

Premier Fermented Gallbladder-ND™ offers a synergistic blend of scientifically studied botanicals in a probiotic-fermented formulation for optimal gallbladder support. Your gallbladder serves as a reservoir for bile, a crucial fluid that aids in the digestion of fats. Bile also facilitates the absorption of essential fat-soluble vitamins, such as A, D, E, and K. An unhealthy gallbladder can lead to discomfort, inflammation, and the formation of gallstones, which are hardened deposits of bile.

Premier Fermented Gallbladder-ND™ is designed to prevent and address gallbladder stress through a combination of cleansing herbal ingredients that have been carefully sourced for maximum potency and purity.

Premier Fermented Gallbladder-ND™ includes milk thistle seed (*Silybum marianum*), which exerts significant antioxidant effects, and artichoke leaf (*Cynara cardunculus*), which has been shown to support healthy bile flow as well as naturally modulate cholesterol levels.\*

This special formulation also includes turmeric (*Curcuma longa*) with its extensively researched bioactive compound, curcumin, to protect gallbladder cells against free radicals and overactive inflammation.\* Betaine-containing beetroot further contributes to antioxidant activity and healthy gallbladder function.\*

This product offers exceptional bioavailability and nutrient absorption attributed to our innovative fermentation technique known as "Novel Micro-cultured Delivery", or "ND." This method allows us to ferment the botanical blend with our distinct probiotic culture to provide a product that delivers rapid, revitalizing results that you can feel.

## Benefits

- Promotes absorption of calcium and phosphorus.\*
- Supports bone strength and formation.\*
- Fosters a healthy heart and immune system.\*

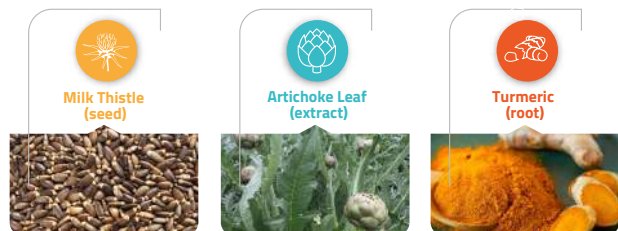

## Highlights

- Delivers 1,000 international units (IU) of naturally derived vitamin D3 per drop.
- Provides the active form of vitamin D3 (cholecalciferol) in extra virgin olive oil for convenience of use and maximum absorption.
- Manufactured without the use of harmful irradiation or additives such as magnesium stearate.

## Recommended Use

- Take 1-5 drops daily (1,000 – 5,000 IU) with food for optimal absorption or use as directed by a health professional.
