

PREMIER GLUCOSE MANAGER™

Dual-Action Support For Healthy Blood
Sugar Balance*

Smarter Glucose Support Starts Here.

Unlike single-ingredient formulas, Premier Glucose Manager™ delivers dual-action support with two clinically researched, trademarked ingredients that work together at every stage of glucose metabolism.*

- **GlucoVantage® Dihydroberberine:**

An advanced, bioavailable form of berberine that activates AMPK to support healthy insulin sensitivity, energy metabolism, and metabolic flexibility.*

- **Reducose® Mulberry Leaf Extract:**

A clinically studied extract that helps reduce post-meal glucose spikes by naturally slowing the breakdown of carbohydrates in the intestine.*

Why Choose Premier Glucose Manager™?

- **Dual-Pathway Formula:**

Targets both glucose absorption and cellular metabolism for a more complete approach.*

- **Clinically Researched Ingredients:**

Features GlucoVantage® and Reducose®, both supported by human clinical studies.

- **Enhanced Bioavailability:**

Dihydroberberine offers up to 5x better absorption than standard berberine.*

- **Clean, Potent, and Pure:**

Formulated with Premier's gold-standard manufacturing and purity verification process.

- **Holistic Metabolic Wellness:**

Supports balanced blood sugar, energy, weight management, and cardiovascular health.*

The Premier Difference

At Premier Research Labs, every formula is designed for efficacy, purity, and intelligent design.

- No unnecessary additives or synthetic excipients.
- Rigorously tested for identity, potency, and contaminants.
- Scientifically crafted to align with the body's natural systems.
