Practitioner-Grade Curcumin Powered by Fenugreek Fiber Technology*

Premier Research Labs Curcumin-FX™ delivers a breakthrough turmeric fenugreek complex designed to overcome the absorption limitations of standard curcumin. Clinically-studied CurQfen®, a patented FenuMat® curcumin-fenugreek formulation, this next-generation blend provides dramatically enhanced absorption of "free" curcuminoids (biologically active form). CurQFen® results in 25x higher "free" curcuminoid blood levels versus standard curcumin. CurQfen® supports a healthy inflammatory response, brain health, liver function, joint comfort, cardiovascular wellness, and whole-body resilience in ways that standard curcuminoids cannot.*

Key Ingredients:

- **CurQFen®** is a patented turmeric-fenugreek formulation designed to enhance the bioavailability and blood-brain-barrier permeability of "free" curcuminoids. Each 333 mg serving provides a higher dose than the amount evaluated in published human studies (typically 250 mg), offering an increased level of bioavailable curcuminoids. Clinical research on CurQFen® demonstrates improved systemic absorption, measurable "free" curcuminoids in circulation, and evidence of brain delivery.*
- **Curcuminoids:** 116.5 mg
- **Organic Turmeric Root Powder:** 30 mg
Whole-plant turmeric root delivering naturally occurring curcuminoids to harmonize botanical synergy and support antioxidant pathways, joint health, and healthy inflammatory balance.*

Why Choose Curcumin-FX™

- **Clinically Validated CurQfen®:** supported by 25+ published studies, including blood-brain barrier permeability and human bioavailability research.*
- **Unmatched Absorption of "Free" Curcuminoids:** delivering significantly higher blood uptake than unformulated and standard piperine-enhanced curcumin.*
- **Blood-Brain Barrier Delivery:** CurQfen® is one of the only curcumin ingredients shown to deliver "free" curcuminoids across the blood-brain barrier for targeted support*
- **Clean, Excipient-Free Delivery:** no synthetic additives, solvents, or unnecessary excipients in rare capsule form*
- **Rigorous Quality Testing:** including purity, potency, microbiology, and contaminant screening to ensure uncompromised quality.

The Premier Difference

At Premier Research Labs, every formula is designed for efficacy, purity, and intelligent design.*

Supplement Facts

Serving Size 1 Capsule
Servings Per Container 60

	Amount Per Serving
Organic CurQfen®	333 mg†
[Organic Fenugreek (Trigonella foenum-graecum) seed 5.5:1 extract and Organic Turmeric (Curcuma longa) rhizome 55:1 extract, containing 35% curcuminoids (116.5 mg)]	
Organic Turmeric (rhizome).	30 mg†
(Curcuma longa)

Curcumin-FX™

Why CurQfen®

A Practitioner-Grade Curcumin Breakthrough: CurQfen® overcomes the primary limitations of standard curcumin, which traditionally has poor absorption, rapid metabolism, and inability to deliver active "free" curcuminoids into circulation.*

Complementary Products:

These complementary products, combined with Curcumin-FX™, support the body's natural inflammatory response and antioxidant activity, Inflammacin™ for proteolytic enzyme support of normal inflammatory processes and musculoskeletal wellness, Creatine for cellular energy and muscle performance, and Lean Advantage™ for metabolic function and body composition – creating a complete approach to supporting active living and recovery.*

Inflammacin™

A 100% plant-based enzyme formula featuring bromelain, papain, and actinidin with synergistic botanicals that support digestive health, relieves occasional muscle soreness between meals, and aids healthy inflammatory response and circulation.*

Premier Creatine

Premier Creatine delivers pure, creatine monohydrate to support cellular energy production, muscle performance, and cognitive function.*

Lean Advantage™

Lean Advantage™ combines thermogenic botanicals and metabolic cofactors to support healthy body composition, fat metabolism, and sustained energy levels.*

How to Order

Practitioners seeking high-quality curcuminoids solutions for their patients can place orders by contacting their sales representative or visiting PRLabs.com. A streamlined ordering process, personalized support, and fast handling to ensure you can stay focused on delivering the best care to your patients.
