Where Neurotrophic Science Meets Cognitive Performance*

Premier Research Labs CogniTropic™ delivers an advanced brain support formula designed to promote cognitive performance, memory, and mental clarity through targeted neurotrophic support.* Featuring clinically researched botanical compounds that may help support Brain-Derived Neurotrophic Factor (BDNF) levels, this comprehensive formula helps support the neurological pathways involved in learning, attention, focus, information processing, and recall.*

BDNF is a key neuroprotein involved in neuronal growth, synaptic plasticity, and cognitive resilience. By supporting healthy BDNF activity, CogniTropic™ helps promote higher thinking, memory function, mood balance, and neurological vitality across the lifespan.*

Key Ingredients & Technology

- **Neumentix™ Phenolic Complex:** Standardized spearmint extract providing rosmarinic acid and polyphenols that support working memory, attention, and cognitive performance.*
- **NeuroFactor™ Whole Coffee Fruit Extract:** Clinically researched extract shown to support BDNF levels and promote brain function related to learning and mental processing.*
- **Choline (from Grape Fermentation):** Supports neurotransmitter synthesis and healthy cognitive signaling pathways.*
- **Organic Rosemary Leaf:** Provides antioxidant phytonutrients that support neurological protection and cognitive vitality.*
- **Plant-Source Capsules:** Vegetarian delivery system designed for clean, practitioner-grade supplementation.*

Item: 2193

Why Choose CogniTropic™?

- **Supports Brain-Derived Neurotrophic Factor (BDNF):** Helps promote neuronal growth and cognitive resilience.*
- **Enhances Memory & Learning:** Supports working memory, recall, and information processing.*
- **Supports Attention & Mental Clarity:** Promotes focus and higher cognitive performance.*
- **Supports Healthy Aging of the Brain:** Helps maintain neurological vitality and cognitive function.*
- **Mood & Sleep Support:** Supports balanced neurological signaling related to emotional well-being.*
- **Clinically Researched Ingredients:** Includes branded compounds studied for cognitive performance.*

The Premier Difference

At Premier Research Labs, every formula is designed with precision, purity, and intelligent nutrient synergy.*

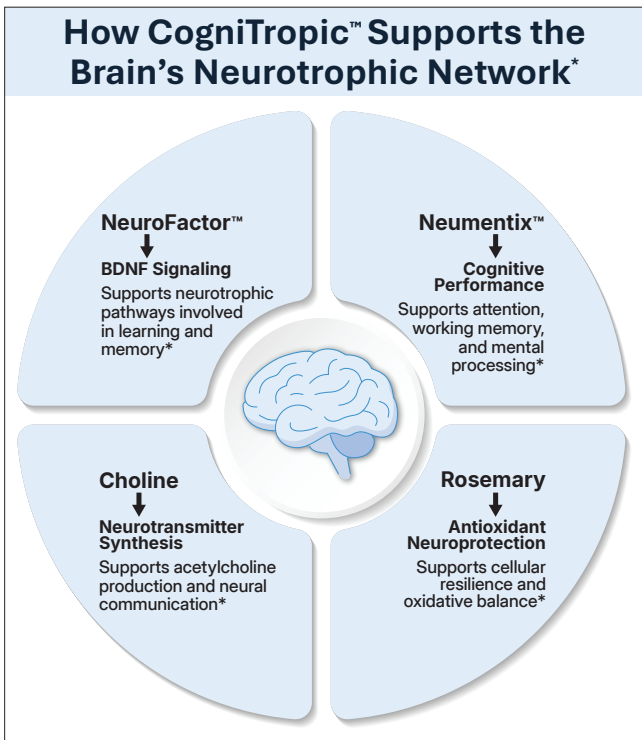

- No unnecessary additives or synthetic excipients
- Carefully selected clinically researched ingredients
- Scientifically designed to support physiological balance*

Advanced Cognitive Support Through Neurotrophic Pathways*

Many cognitive formulas focus on stimulants or isolated nutrients without addressing neurotrophic pathways.* CogniTropic™ provides targeted botanical support designed to promote BDNF activity and support multiple cognitive domains including memory, focus, learning, and neurological resilience.*

NeuroFactor™ is a trademark of VDF FutureCeuticals, Inc.
U.S. Patent Nos.: 6572915, 7754263, 7807205, 7815959, 8597710, 8603563, and 8603564

Complementary Products

CogniTropic™ supports cognitive performance and neurological resilience through targeted neurotrophic support.*

It may be used as part of a broader nutritional protocol alongside complementary products. Tranquilol® is often included in such protocols to help support a balanced mood and promote a calm, focused state.*

When combined with NeuroVen™ for comprehensive neurological health, Curcumin-FX™ for antioxidant and inflammatory balance support, and Aminos-FX for neurotransmitter and metabolic support, this integrated approach helps reinforce mental clarity and long-term brain vitality.*

Key Takeaways

CogniTropic™ delivers advanced cognitive support through targeted botanical compounds designed to promote BDNF activity, support memory and learning, and help maintain neurological resilience and mental clarity.*

Emerging science suggest that our proprietary spearmint extract supports attention.
