

Premier Plant Vitamin C

Antioxidant, Immune & Optimal Health Support

Premier Plant Vitamin C is the ultimate essential, plant-based, highly bioavailable vitamin C supplement. Vitamin C is not produced by the body, so it's important to maintain adequate levels through nutrition. Vitamin C has been shown to promote antioxidant activity, immune defense, and healthy blood pressure levels with potential to reduce chronic disease risk.*

Premier Plant Vitamin C is sourced from carefully curated botanicals for premium purity and potency. We use Indian gooseberry (*Emblica officinalis*), also known as amla, which has played an important role in traditional Indian Ayurvedic medicine for centuries due to its tissue-protective antioxidants—including abundant vitamin C—and immune-supporting plant compounds.

Premier Plant Vitamin C offers unique synergistic benefits by combining amla-derived vitamin C with additional sources: antioxidant-packed organic cilantro (*Coriandrum sativum*) is blended with the natural antihistamine power of rose hips (*Rosa spp.*) and quercetin (a plant pigment), along with the action of hesperidin extract from oranges. Each of these ingredients have been carefully selected and thoroughly tested to offer the maximum wellness-boosting impact with every dose.

Premier Plant Vitamin C stands alone in its whole, real, clean, pure vitamin C derived from only the highest quality ingredient sources, providing maximum impact in a lower dose.

Benefits

- Delivers potent antioxidant activity, neutralizing free radicals in the body that cause damage to cells and DNA, contributing to overall wellness.*
- Bolsters the function of various immune cells including neutrophils, a type of white blood cell that kills bacteria and yeast.*
- Supports heart health and healthy blood pressure.*

Vita C Support Blend

Highlights

- Sourced exclusively from organic, non-GMO plant sources such as Indian gooseberry (amla), cilantro, and rose hips.
- Plant-based, containing no synthetic forms of vitamin C created in a laboratory.
- Rigorously tested to confirm it is non-GMO, vegan friendly, and free from harmful additives and contaminants.

Recommended Use

- Take two capsules daily, with or without food, for 135 milligrams of highly absorbable, all-natural vitamin C.
