

THE Q-DISC 5.0

Ultra-Thin, Bioenergetic Disc

The Ultimate in Bioenergetic Harmonization

THE Q-DISC 5.0

A breakthrough technology that has been developed to support the quantum coherence of the body's bioenergetic biofield. The Q-Disc's proprietary technology is based on a layering of specifically designed **metallic gels** captured on a disc that act as a kind of step-down transformer to deliver beneficial effects on the bioenergetic level.

The Q-Disc 5.0 also features the eye-catching “**Power Catcher**” design on its facing. This geometrically balanced design is a reconstructed Flower of Life design based on **genuine bioenergetic geometry**. The design is included on the Q-Disc to enhance its bioenergetic action.

You may affix the Q-Disc to your cell phone (or other battery-operated devices) to receive its potent benefits. After a Q-Disc is affixed to your phone and you wish to change to a new cell phone, you may remove the Q-Disc from the original phone and add it to your new one.

Directions: Simply peel off the blue backing strip and press the Q-Disc 5.0 firmly to the back (center) of the selected device. Please wipe the surface first so it is clean before affixing the Q-Disc.

The Q-Disc may be affixed to a cell phone or any device with a battery. Once affixed, it may be removed only by scraping off the sticky adhesive so that you can place it on another device (if desired). However, you will need to replace the adhesive.

If you have a plastic case on your cell phone, you must still place the Q-Disc on the cell phone itself, not on the outer case. Because the Q-Disc is ultra-thin, your cell phone with the Disc will typically fit easily within the case.

Note: The Q-Disc 5.0 is designed for bioenergetic harmonization and is not intended to protect against electromagnetic fields or other fields emitted from battery-operated devices.

Commitment to Excellence:
Each PRL Formula Meets or Exceeds FDA/cGMP Standards

WHAT IS THE BIOENERGETIC DOMAIN?

The National Center for Complementary and Alternative Medicine (NCCAM), an agency of the National Institutes of Health and the U.S. Department of Health & Human Services, now **recognizes the domain of energy medicine and the concept** that “human beings are infused with a subtle form of energy.”

According to NCCAM, many Complementary Alternative Medicine (CAM) practitioners claim that “they work with this subtle energy, see it with their own eyes, and use it to affect changes in the physical body. CAM Practitioners suggest this plasma energy field is the **ultimate controlling energy force of life**, possibly exercising pre-eminent control over all molecular biochemistry.

Mainstream quantum physicists, such as Roger Penrose, report that quantum coherence of the body accounts for how phase-coordinated electrical activities can occur in widely separated parts of the brain. Keep in mind, the quantum coherence of the body is not defined as the actual electrical activities themselves, but as the guiding, organizing and coordinating domain behind the working of the electrical activities.

QUANTUM COHERENCE OF THE BODY'S BIOFIELD

Quantum coherence of the plasma energy field of the body is the **master organizer of the bioenergetic rhythms of the body.**

Once again, quantum coherence is not defined as the actual rhythms of the body but as the organizer and coordinator that orchestrates these life rhythms.

The dynamic liquid crystal continuum of the body's plasma energy field **allows it to respond with exquisite flexibility, sensitivity and capability** to function as a coherent, coordinated whole. In this model, coherent energy exchanges in the body are ultra-sensitive to very weak and high frequency signals. With weak or fragmented coherence, the energetic signals flounder and the encoded information can become jumbled before reaching its target.

You have probably heard of the negative effects of the new 5G technology. However, in order to best support the liquid crystal continuum of the body's biofield, we believe that it is essential to address the reigning hierarchy of the bioenergetic domain, rather than the electromagnetic fields. We believe that the **Q-Disc acts to support the elegant bioenergetic harmonization of the body.**
